Angelo Rodio

Postdoctoral Researcher
Department of Electrical Engineering (ISY), Linköping University, Sweden

Campus Valla, B-huset, Entrance 29, Office 3A:469, 583 30 Linköping, Sweden
+46 76 447 68 29 angelo.rodio@liu.se, a.rodio@yahoo.com
arodio.github.io Google Scholar arodio 0000-0001-8395-4536
Italian · born 6 July 1995 in Bari, Italy

Research interests

Decentralized machine learning over networks: convergence theory, communication design, privacy, and energy efficiency. Methods: convex and non-convex optimization, linear algebra, graph theory, stochastic modeling, and statistical learning theory.

Academic qualifications

Mar 2026 — **Qualification aux fonctions de Maître de conférences**, France
National qualification for associate professor positions, CNU Section 27 (Computer Science).

Positions

Sep 2024 – present — **Postdoctoral Researcher**, Linköping University, Sweden
Division of Communication Systems. Hosts: Prof. Erik G. Larsson and Assoc. Prof. Zheng Chen.

Jul – Sep 2026 — **Visiting Researcher**, Nanyang Technological University (NTU), Singapore
College of Computing and Data Science. Host: Assoc. Prof. Chee Wei Tan. Funded by Vinnova (project MADELEINE, ref. 2026-01731, SEK 500,000).

Sep 2020 – Mar 2021 — **Telecommunications Engineer**, TIM S.p.A., Rome, Italy
Consulting and integration support for a cloud platform.

Education

Apr 2021 – Jul 2024 — **PhD in Computer Science**, Inria and Université Côte d'Azur, France
Thesis: *Client Heterogeneity in Federated Learning Systems*, defended 3 July 2024. Supervisors: Giovanni Neglia and Alain Jean-Marie. Reviewers: H. Vincent Poor (Princeton University) and Michele Rossi (University of Padova). Funded by a 3IA Côte d'Azur doctoral fellowship.

Sep 2019 – Aug 2020 — **MSc in Computer Engineering (double degree)**, Université Côte d'Azur, France
Grade: *Très bien*. Thesis at Inria on Wi-Fi fingerprint indoor localization for smartphones (supervisors: Arnaud Legout and Chadi Barakat).

Oct 2018 – Sep 2020 — **MSc in Telecommunications Engineering**, Politecnico di Bari, Italy
Grade: 110/110 *cum laude*. Supervisor: Luigi Alfredo Grieco.

Sep 2014 – Feb 2018 — **BSc in Computer Engineering**, Politecnico di Bari, Italy
Grade: 109/110. Thesis on the performance of nanoscale communication systems (supervisors: Giuseppe Piro and Gennaro Boggia).

Grants and awards

2026 **Vinnova mobility grant**, SEK 500,000, for the project MADELEINE: *Massive Decentralised Learning in the Network Edge* (ref. 2026-01731). Call: *Individual mobility within 6G for collaborations with the USA and Singapore*. Sole applicant and project leader. The grant funded a research stay at NTU Singapore and started a new collaboration between LiU and NTU.

2025 **IEEE Information Theory Society travel grant**, IEEE ITW 2025.

2024 **ACM SIGMETRICS student travel grant**, ACM SIGMETRICS 2024.

2021 **3IA Côte d'Azur doctoral fellowship** (PhD funding).

PhD thesis

[13] **A. Rodio**. Client Heterogeneity in Federated Learning Systems. PhD thesis, Université Côte d'Azur, 2024. HAL: tel-04685040

Teaching

79 hours at Master's level, taught in English in Sweden and France.

2026 — **Distributed Information Processing and Machine Learning (TSKS38)**, Linköping University
28 h: 12 h of tutorials and 16 h of labs (with A. Edin).

2025 — **Distributed Information Processing and Machine Learning (TSKS38)**, Linköping University
12 h of tutorials. Prepared the problems and solutions, and graded the exams.

2022 – 2024 — **Federated Learning and Data Privacy**, Université Côte d'Azur (M2 DS4H)
12 h of labs per year (2022–23 and 2023–24, including 3 h co-taught with C. Xu).

2021 – 2022 — **Optimization for Machine Learning**, Université Côte d'Azur (M1 DS4H)
15 h of labs (including 9 h co-taught with O. Marfoq).

Supervision

2026 — **Mehran Mamivand**, MSc thesis, Linköping University. *Energy-Efficient Semi-Decentralized Federated Learning via Cooperative D2D Model Aggregation*.

2026 — **Camilla Samuelsson**, MSc thesis, Linköping University, carried out at the Swedish Defence Research Agency (FOI). *Set Reconciliation Algorithms in Tactical Networks*.

2024 — **Albachiara Bellaroba**, MSc thesis, Sapienza University of Rome, Italy.

2023 — **Mohamed Salah Jebali**, MSc thesis, University of Florence, Italy.

2023 — **Maysae Hmamouchi**, MSc research project, Université Côte d'Azur, France.

Service

Session chair — AAAI 2026 (Singapore) and IEEE ITW 2025 (Sydney).

Reviewer — *Journals:* IEEE Journal on Selected Areas in Communications; IEEE Transactions on Automatic Control; IEEE Transactions on Mobile Computing; Computer Networks.
Conferences: AAAI, UAI, IEEE INFOCOM, IEEE GLOBECOM, IEEE ICC, IEEE ICASSP.

Skills and languages

Programming — Python, C/C++, Java; Linux, Git, Jupyter notebooks; reproducible research code.

Languages — Italian (native), English (C1), French (B2).
